In-depth study of foreign language (English).

Code samples	https://github.com/Telonor http://codepen.io/Telonor
Language skills	English: Upper–Intermediate; Ukrainian, Russian: native.
Additional Information	I was born in the programmer's family, so from my childhood, my hobby was PC gaming and IT at all. I like tourism, so I am prepared for business trips. I'm a hard–working person, so if it is necessary, I can work overtime.

I've spent a lot of time in PC games, as I told, here is some of my accounts: World of Tanks, World of Warcraft, and I want to spend the same amount of time for python coding working on interesting projects as part of an ambitious team using up–to–date technologies.
